Revision

Have you ever slept in a dome? We've just come back from our holiday at The Dome Garden in the Forest of Dean where we stayed in a domed tent in the middle of a wood! The tent is big and round, and it's a lot more comfortable than old-fashioned tents – it looks like something from outer space. All the domes are in the middle of the forest and they've used recycled materials for the insulation and to build the paths. We used a woodburning stove to heat our water and to keep the dome warm. Every day we went biking, hiking or canoeing. It's like space age camping!
