Every time I visit my cousin, we go to a little café where we have our favourite dessert. It is made from milk, eggs, and flour, and I love it with cherry-flavoured jelly and chocolate.

When you are in Thailand, you must try this delicious frozen treat. It comes in many flavours, but my favourite is peanut butter. It's best to have this on hot days!

Lucy

My favourite street food is very easy to make. You don't need any flour, milk, or sweetcorn. You just need some chestnuts! Cut them open and roast them for some time over a barbeque. I love them especially around Christmas time!
