

1 Znajdź znaczenie poniższych wyrazów w słowniku i zapisz je.

exactly – dokładnie

1 data – _____

4 network – _____

2 hacked – _____

5 properly – _____

3 honestly – _____

6 secured – _____

2 Przeczytaj wpis na blogu. Uzupełnij go wyrazami z ćwiczenia 1. Co sądzisz o Internecie rzeczy?

Hi everyone,

Yesterday evening, my father and I talked about the Internet of Things – IoT. What is it, exactly? Generally speaking, everyday objects like fridges or washing machines might be in the IoT, but they must be connected to the Internet. For example, we can contact our fridge using our smartphone and check what we need to buy. The fridge can also send us a message with the list of products we need.

Is it good for us or bad for us? ¹ _____, I don't know. To make the IoT work ² _____, you must give the objects a lot of ³ _____ about you, your personal life, or even your health. It might be dangerous especially when your ⁴ _____ isn't ⁵ _____. The information might be ⁶ _____!

On the other hand, this technology makes our life easier. We don't have to think about some everyday activities like shopping and can spend time the way we like.

What do you think?

I'm waiting for your comments.

3 Przeczytaj zdania. Na podstawie tekstu w ćwiczeniu 2. zdecyduj, czy są prawdziwe (True) czy fałszywe (False). Popraw zdania fałszywe.

IoT connects only computer equipment. True / FalseIoT can connect everyday objects in our house.

1 IoT objects do not have to be connected to the Internet. True / False

2 We can contact IoT objects using only our computers. True / False

3 IoT objects, like a fridge, for example, can send us some messages. True / False

4 IoT objects are very intelligent and don't need a lot of information about us. True / False

4 Znajdź informacje na temat ciekawego rozwiązania technologicznego i opisz jego wady i zalety. Użyj tekstu z ćwiczenia 1. jako wzoru.

Hi everyone,

I read about an interesting thing recently.

What do you think?
