5 Przeczytaj tekst i odpowiedz na pytania pełnymi zdaniami.

Jim: These are my best friends, Jack and Tony. Jack is the most easygoing person I know. Tony isn't as cheerful as Jack but he's good fun, too. They are both very helpful and friendly. We are all into maths and science. Jack is better at maths than me but a bit worse than Tony. But Jack is excellent at biology! He's the best out of us all. Tony's grades in biology are a little worse than mine. My favourite subject is chemistry and my grades are really impressive.

I'm pretty sure that Tony is the strongest boy in our class. He does judo so you'd better watch out! Me and Jack play football for our school team. I'm not as fast as Jack but I'm more aggressive. Well, that's what our coach says. What are your best friends like?

- 1 Who is more easygoing: Tony or Jack?
- 2 Who is the best at maths?
- 3 Who is the worst at biology?
- 4 Who is the strongest boy in the class?
- 5 Who is faster: Jack or Jim?
